

Pbdc1-Flox

系統名	C57BL/6Smoc- <i>Pbdc1</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Pbdc1	Synonyms	2610029G23Rik
	NCBI ID	67683
	MGI ID	1914933
	Ensembl ID	ENSMUSG000000031226
	Human Ortholog	PBDC1

説明

These mice carry loxP sites flanking target exons of *Pbdc1* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Pbdc1* gene.

*Literature published using this strain should indicate: *Pbdc1*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
